

# RETURN ON INVESTMENT

Doxsteel Fasteners are designed to offer our customers a return on investment that is unparalleled in the fastener industry. Every process we perform and every test we conduct is done to prolong our fasteners' lifespan, provide quick and easy installation, and resist seizing to prevent costly operational shutdown and dangerous hot bolting conditions.

To determine just how much cost savings Doxsteel Fasteners provide, we constantly document our bolts' field performance wherever they are in service. We hope to determine the total cost of owning a Doxsteel Fastener compared to other leading bolts.

CONCEPT	COST CADMIUM COATED FASTENERS	COST DOXSTEEL COATED FASTENERS	DIFFERENCE SAVINGS
Average Cost of the Fasteners	\$100	\$500	(+)500%
Average Cost of Hot Bolting Procedure	\$5,400	\$2,700	(-) 50%
Total Cost	\$5,500	\$3,200	Saving 42%
